CLAAS continually develops its products to meet customer's requirements, so all products are subject to change without notice. All descriptions and specifications in this brochure should be considered approximate and may include optional equipment that is not part of the standard specifications.

**High compaction**

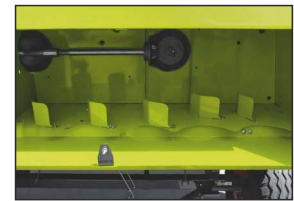

- The new bale chamber shape enables the MARKANT to produce heavier bales
- More kilos per bale mean more tonnes per truck, for lower transport costs

**Strengthened pick-up**

- New: strengthened pick-up, for working in any conditions
- Controlled pick-up for longer service life

**Pivoted drawbar**

- Lesser turning radius
- Attached to lower link, so drawbar can be lifted / lowered when crossing bunds

**Twine box**

- New twine box with capacity for ten reels
- Better access to the ten reels
